Capital Federal, Argentina

Professional Profile

Full Stack Developer with experience in JavaScript, TypeScript, and C#, familiar with frameworks and tools such as React, Next.js, Nest.js, Node.js, Sequelize, PostgreSQL, SQLite, and Prisma. Advanced version control management with GIT and GitHub, as well as agile methodologies like Scrum. Passionate about logic, planning, and organization, I seek an environment that allows me to develop professionally, with stability and opportunities to maximize my potential.
