## Junior Full Stack Developer

### JavaScript | React | Node.js | TypeScript | PostgreSQL

**Junior Full Stack Developer** and Information Systems Engineering student, with experience in developing web applications using JavaScript, TypeScript, Node.js, React, Next.js, and PostgreSQL. I integrate frontend, backend, and databases prioritizing efficiency, maintainability, and technical quality. I worked under the **Scrum** methodology, applying development and version control best practices with **Git/GitHub**. I developed RESTful APIs, secure authentications, admin dashboards, and payment systems. I handle frameworks and tools such as NestJS, Express, Prisma, Sequelize, HTML, CSS, Tailwind, MySQL, SQLite, Docker, and Postman. I have knowledge in Cloud, CI/CD, Testing (Jest/Cypress), and microservices-based architectures. I stand out for my proactivity, my orientation toward teamwork, and my commitment to continuous learning.

## WORK EXPERIENCE

### Remotasks– (Remote)

#### Code Analyst – AI

12/2023 – present

- I analyze and correct code generated by artificial intelligence in **JavaScript, HTML, and CSS**, ensuring readability, functionality, and compliance with quality standards.
- I apply **development best practices** to improve technical accuracy and consistency of results.
- I exchange inquiries and technical contributions in the internal Slack channel, helping unify criteria and resolve frequent questions.

### Freelance

#### Full Stack Developer– Argentina (Remoto)

06/2023 – present

- I develop comprehensive web platforms with **React, Next.js, Node.js, Express, TypeScript, and PostgreSQL**, applying scalable architectures and Agile methodologies.
- I implemented RESTful APIs, admin dashboards, secure authentications (Google, Steam), and payment systems with PayPal.
- I designed and integrated relational databases (**PostgreSQL, MySQL, SQLite**) using **Prisma** and **Sequelize**, optimizing performance and security.
- I manage end-to-end projects: planning, technical documentation, client meetings, and delivery tracking.
- I integrate **artificial intelligence** tools to speed up development processes and ensure more efficient, results-oriented deliveries.

### Henry Bootcamp– Argentina (Remote)

#### Technical Mentor in Full Stack Development

03/2023 – 07/2023

- Selected among 300+ candidates to support a group of 18 students in their training as **Full Stack Developers**, providing technical support, content, and live coding, promoting teamwork and achieving a 90% graduation rate.
- I guided students' learning in JavaScript, React, Node.js, and databases, helping them solve exercises, understand frontend, backend, and data management concepts.

### Moverart Group–

#### Administrative

09/2021 – 04/2023

### Argentine Air Force–

#### Supervisor

05/2012 – 02/2020

## PROFESSIONAL SKILLS

**Languages and Frameworks:** JavaScript | TypeScript | Node.js | React | Next.js | HTML | CSS | SQL | PostgreSQL | MySQL | SQLite

**Backend and APIs:** Express | NestJS | Prisma | Sequelize | RESTful API | Version control (Git/GitHub)

**Frontend:** React | Tailwind | CSS | Responsive Design | UX/UI

**Tools and Environments:** Postman | Docker | Linux | Visual Studio Code | GitHub Projects | Scrum

**Best Practices:** Clean Code | SOLID | Design Patterns | Testing (Jest, Cypress) Basic

**Infrastructure / Cloud:** CI/CD | Cloud | Microservices

## LANGUAGES

English (C1) | Spanish (native)

## EDUCATION

### Information Systems Engineering – Argentina, Buenos Aires

Universidad Tecnológica Nacional (UTN) | 2024 - In progress

### Full Stack Web Developer – Argentina, Buenos Aires

Henry | 2023 Completed

## COURSES AND CERTIFICATIONS

C# - Microsoft	2025
SQL - Linkedin Learning	2024
JavaScript - Linkedin Learning	2024
React - Linkedin Learning	2024
